counter.pdf (not checked)

## Overprint

## File delivery

Use external services.  
instead of an email attachment.

WeTransfer

Dropbox Google Drive

transferrnow

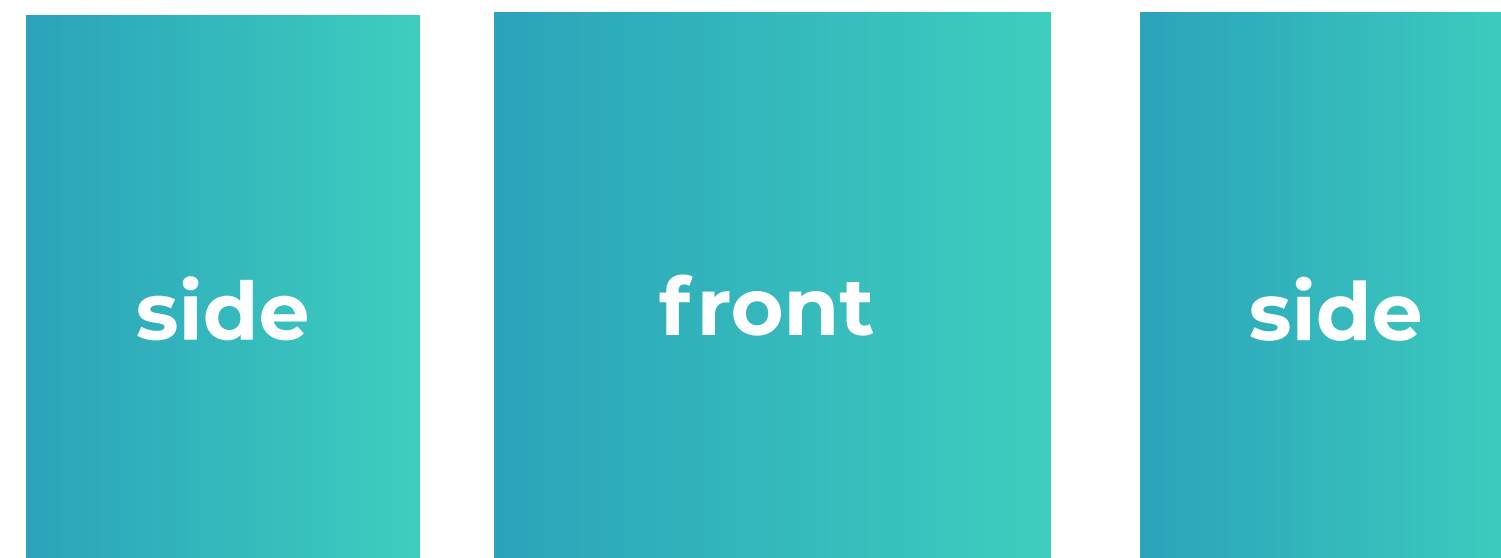

Uploaded files should be editable (excluding texts).  
Do not apply any file locks.

## Branding options

If you do not need graphics on the sides, just please let us know.

In this case, the sides will have plain white fabric without any print, and we don't need a production file for printing.

If you need a solid color on any of the counter's walls, please prepare separate files in the correct dimensions using CMYK color mode. It is not possible to produce fabric in any color other than white without a corresponding print file.

Graphic covering of the counter is **not included** in the rental price

# Dimensions and bleeds

Backlighted fabric counter 100 cm **classic**

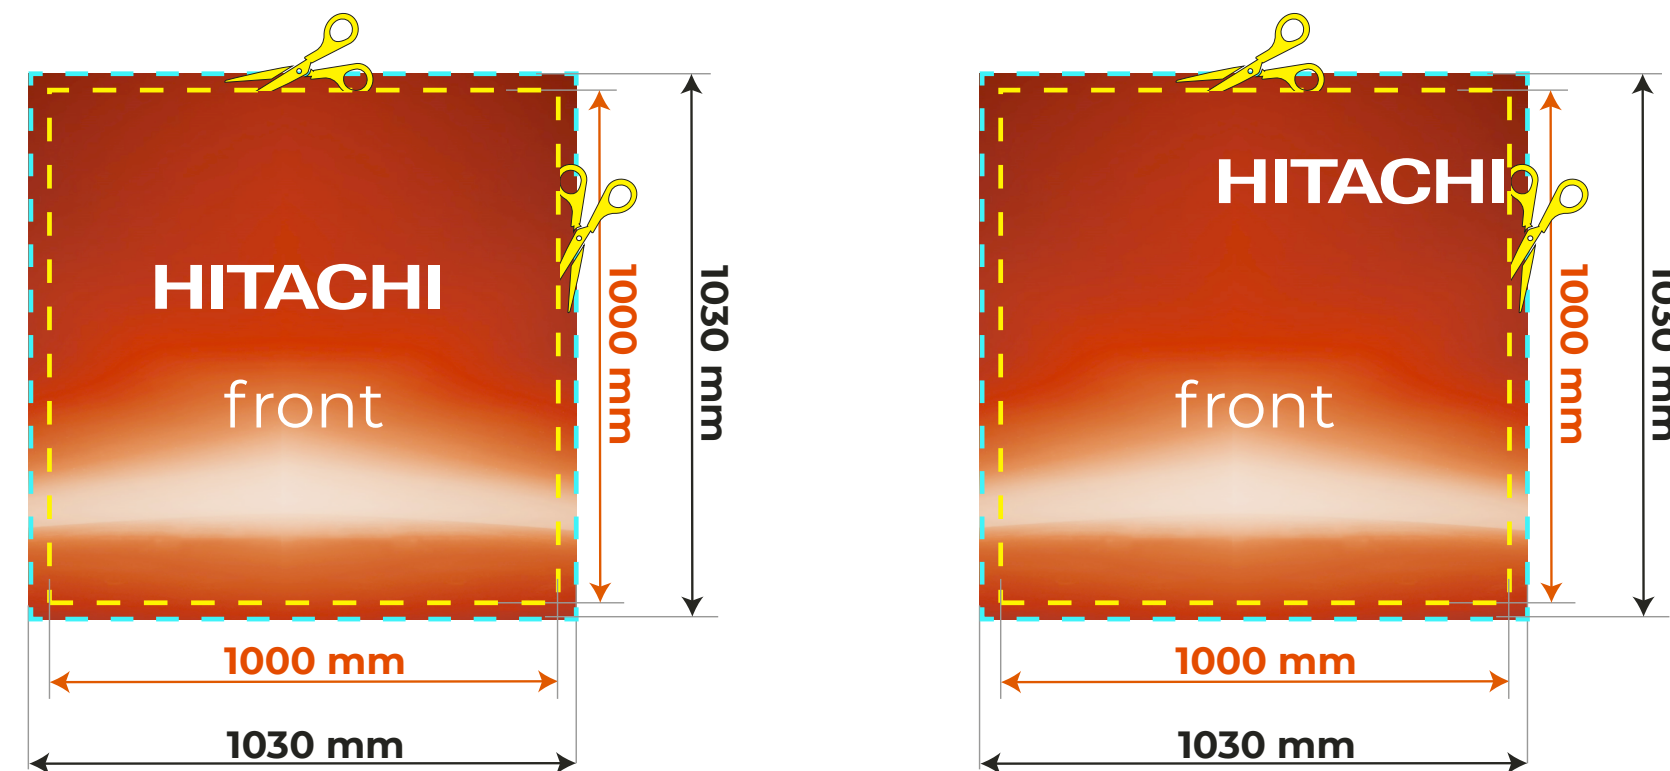

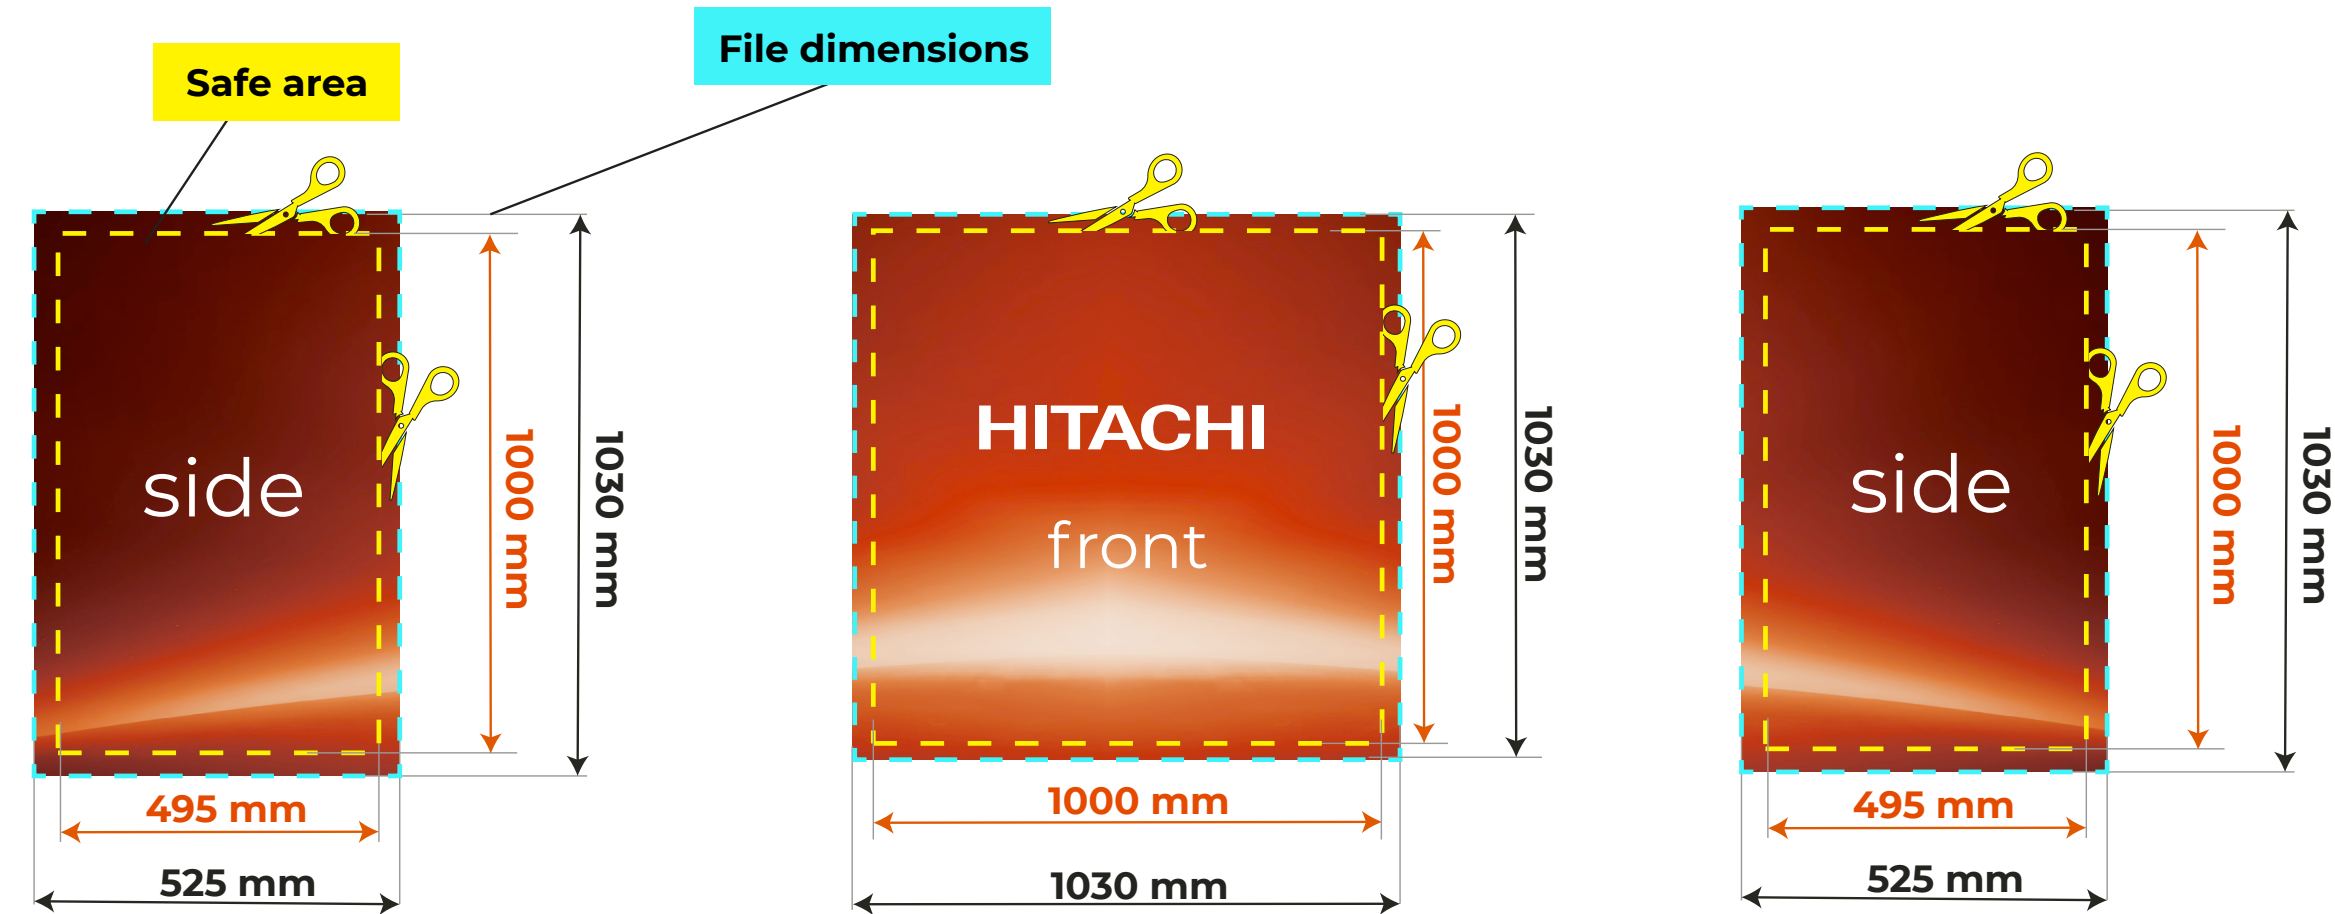

**Edge Finishing**  
 A special keder will be sewn into the bleed area, which is essential for mounting the fabric onto the counter.  
 We recommend continuing the background of the graphic in this area.

# Dimensions and bleeds

Backlighted fabric counter 100 cm „S”

**Edge Finishing**

A special keder will be sewn into the bleed area, which is essential for mounting the fabric onto the counter.

We recommend continuing the background of the graphic in this area.
